ABOUT US.

DAMAAR Business Setup Consultants have been helping entrepreneurs, investors and business owners form and foster their business enterprises in UAE since 2015. We uphold reliability and excellence in service as important work-values and constantly strive to be the best service provider in the market satisfying all the requirements of the client in a well informed and proficient manner.

Setting up a business in this investor-friendly country will require the assistance of an authentic business support system that is designed to promote the seamless completion of procedures and careful assimilation of permits. DAMAAR is the ideal partner for all licensing processes and associated legal document clearing services. We guarantee reduced operation costs by leveraging our customer-specific business setup service that encompasses all formalities of establishing your presence in this international market. We undertake all collaborations as long-term partnerships that promote the growth of your business.

Our strict confidentiality policy is applicable to all our processes and we uphold the security and integrity of each client with utmost regard and responsibility. Our working module is based on strong professional ethics and we carefully assemble our team with industry experts and highly motivated individuals. These insightful measures have enabled us to become the ideal business partner and service provider; strongly rooted in customer satisfaction and quality services.
